1364.0.15.003 - Modellers' Database, Jun Qtr 2011

Previous ISSUE Released at 11:30 AM (CANBERRA TIME) 26/10/2011

Summary

About this Release

The Modeller's Database consists of 410 quarterly time series constructed from the NIF and TRYM econometric models. Some of the time series are published elsewhere by ABS while others are specifically constructed for the TRYM and NIF models.

IMPORTANT NOTE:

The publication of the Treasury Model of the Australian Economy - TSP Version (Cat. No. 1364.0.15.001) formally ceased from June 2012. Previously it was in suspension since the June Quarter 2011 release, to undergo a major review. Following the review, the agreement between the Treasury and the ABS has been discontinued resulting in the ABS decision to cease the publication. The Treasury has made no commitment to the future publication of TRYM.

The publication of the Modellers Database, which had a TRYM database component, was also suspended following the review. It will however be reinstated on 27 September 2012 and its contents will no longer include the previously TRYM-generated series.

For questions or more information about the TRYM review and redevelopment, please contact Michael Kouparitsas (02 6263 3217 or michael.kouparitsas@treasury.gov.au). For questions or more information about the Modellers Database, please contact Joseph Chien on (02) 6252 5917 or joseph.chien@abs.gov.au.
